UX DOCUMENTATION

Customer journey map · Orbit trading app

Persona journey from first discovery to repeat investing. Sample research content for design preview.

PH **Pharina, 29**
UX designer · Bangkok · first-time investor

GOAL
Build long-term savings by investing THB 20,000 to 50,000 each month.

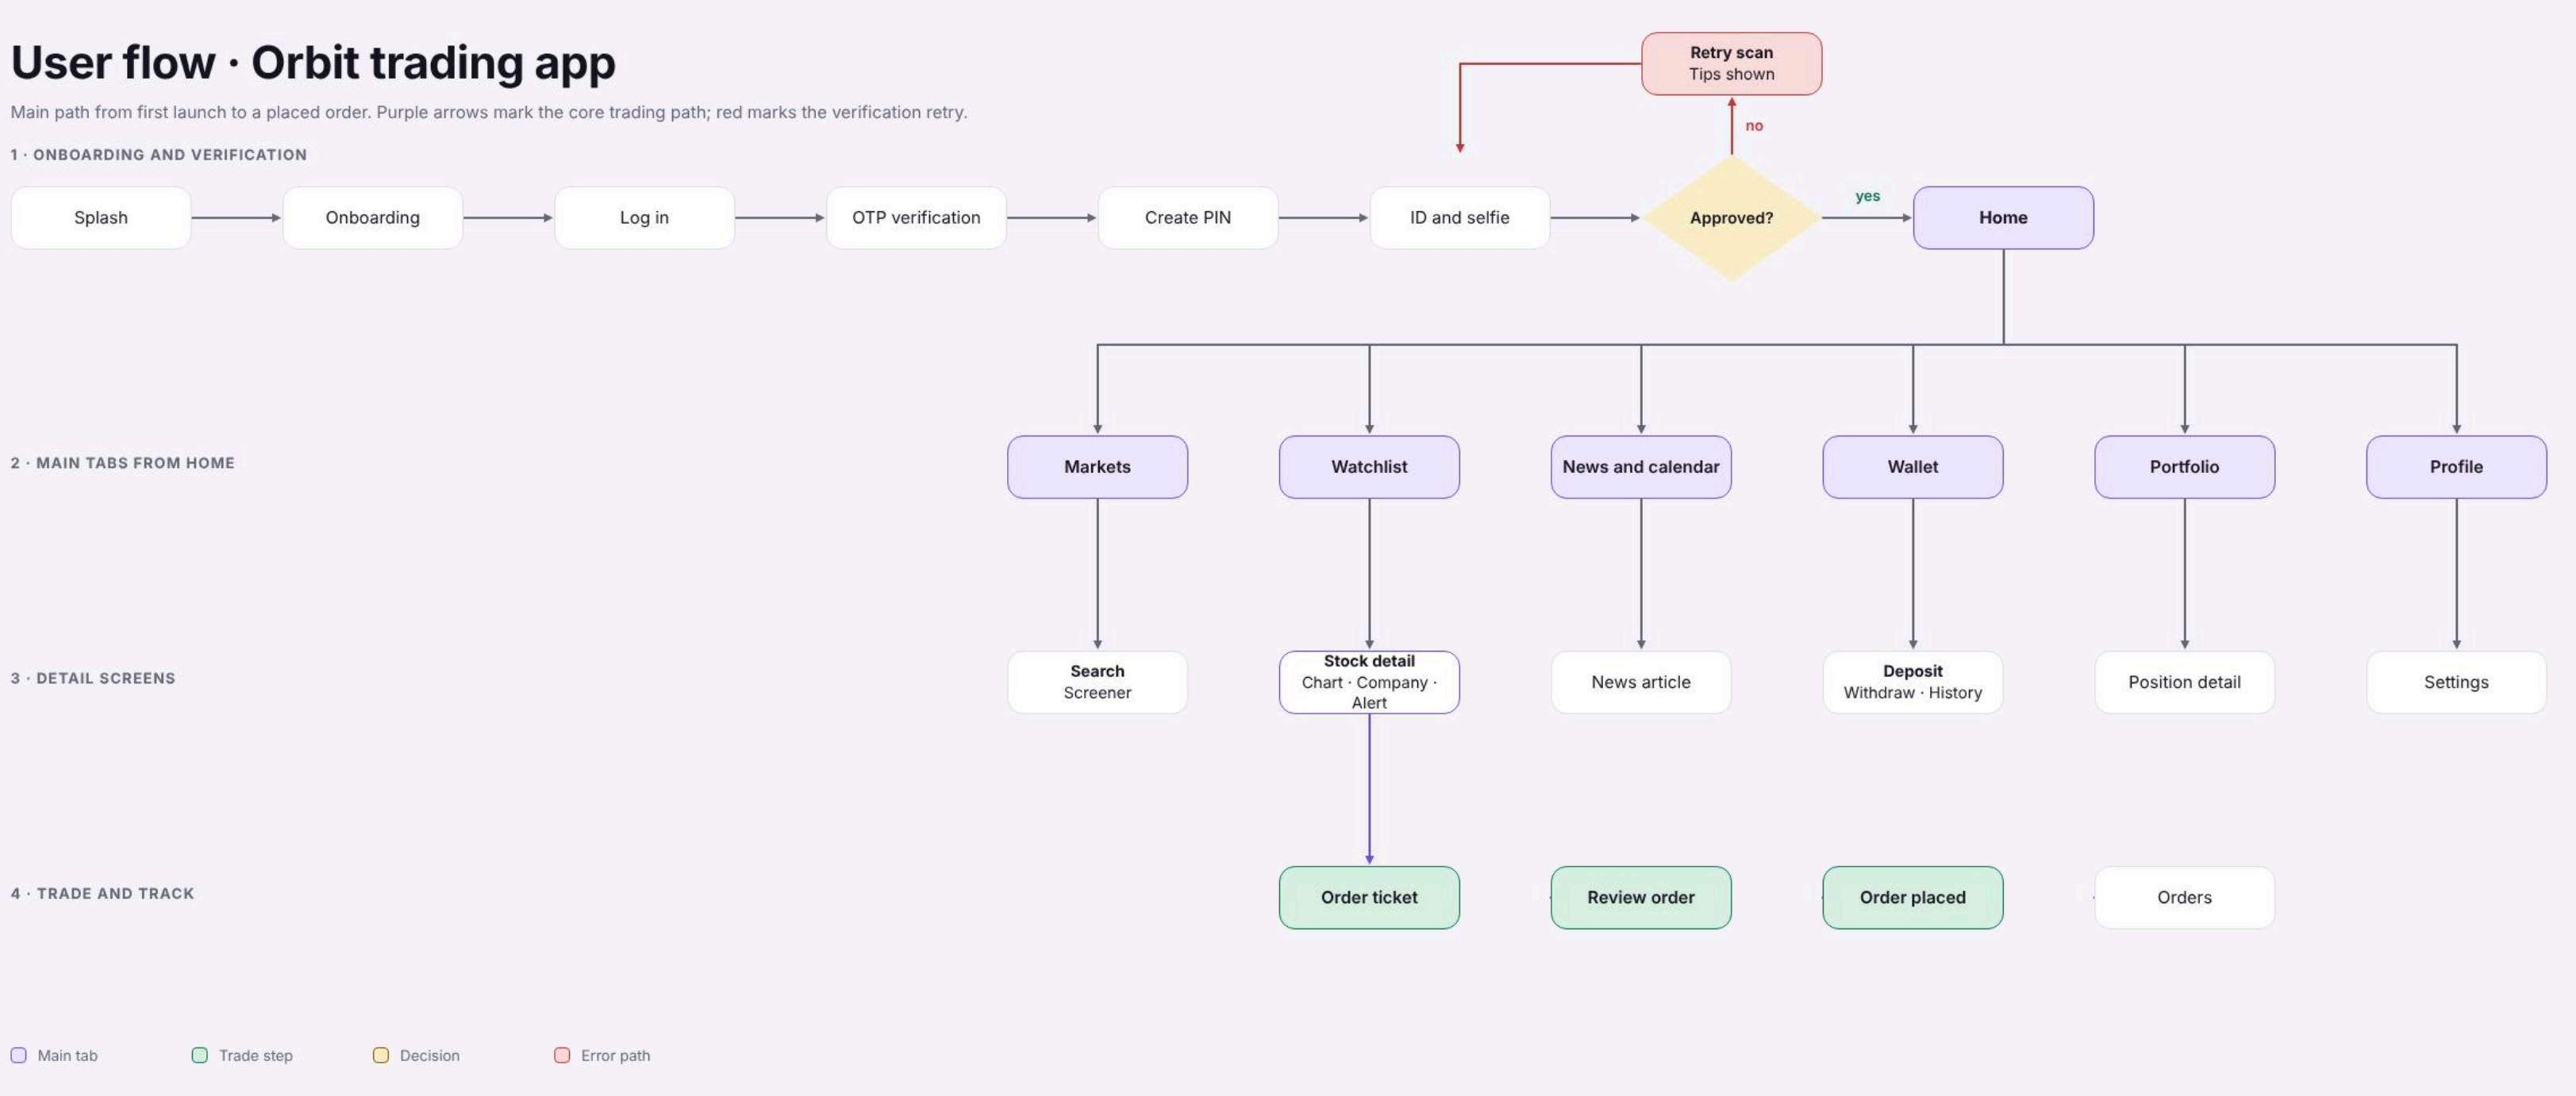
NEEDS
Simple steps, clear fees, and a feeling that her money is safe.

FRUSTRATIONS
Jargon, hidden costs, and slow identity verification.

	1 Discover	2 Sign up and verify	3 Fund account	4 Research	5 Trade	6 Monitor	7 Withdraw and grow
ACTIONS	Sees a friend's portfolio, searches the app store, reads reviews.	Enters phone number and OTP, creates a PIN, scans ID, takes a selfie.	Links a bank account and deposits with a PromptPay QR code.	Browses markets, builds a watchlist, reads news and company financials.	Opens the order ticket, sets a limit price, reviews the total, confirms with Face ID.	Checks portfolio and open orders, sets price alerts, reads notifications.	Withdraws profit, reviews transactions, tops up for the next purchase.
TOUCHPOINTS	App store Splash Onboarding	Log in OTP Create PIN Identity	Wallet Deposit	Markets Watchlist Search Screener Stock News	Order ticket Review Order placed	Home Portfolio Orders Alert Notifications	Withdraw Transactions Profile
THOUGHTS	*"Is this safe and properly regulated?"*	*"I hope this does not take all afternoon."*	*"How soon can I actually buy something?"*	*"Which of these fits a beginner like me?"*	*"Am I paying the right price? What if I tap wrong?"*	*"Is my money working for me?"*	*"That was easy. I will invest more next month."*
EMOTION	Curious	Impatient	Unsure	Engaged	Nervous	Confident	Satisfied
PAIN POINTS	Unsure about trust, licensing, and fees.	ID scan fails in low light; waiting for approval.	Settlement time is unclear after depositing.	Too many numbers and no guidance on what matters.	Fear of mistakes and surprise commission on the total.	Too many notifications dilute the important ones.	Cash from sales is locked until T+2 settlement.
OPPORTUNITIES	Show the regulator licence and a fee summary on onboarding.	Live capture tips, save and resume later, status push when approved.	Credit PromptPay deposits instantly and label "available to trade".	Screener presets and plain-language stock summaries.	Show total cost up front, a clear review step, and easy cancel.	Smart alert presets and a weekly portfolio digest.	Show the withdrawable date and add a monthly invest reminder.

User flow · Orbit trading app

Main path from first launch to a placed order. Purple arrows mark the core trading path; red marks the verification retry.



Wireframe User Flow — Orbit Trading

Mobile trading app · 29 low-fidelity wireframes, one per UI screen, connected by tap paths: sign-up, markets, trading, details, portfolio, funds and account.
Badges show the screen code used in the UI frames on this canvas.

SET ends the morning session up 7 points as resources and technology lead

OB Orbit Research · Sample content

SET ▲ 0.82%

Thai equities extended gains into midday as energy and technology names attracted buyers, with foreign investors turning net buyers for the session.

Traders are now watching the Bank of Thailand's commentary and next week's US inflation data for direction.
